JOIN US ON THE PATHWAY TO INVENTION!
Free online events for educators

The Lemelson-MIT Program and MIT’s J-WEL pK-12 are offering four professional development opportunities for educators to engage in activities needed to launch students on the pathway to inventing. Learn how to find and define problems, and design and build novel, useful and unique solutions that improve the lives of others.

Opportunities are offered to primary and secondary education teachers who teach ages 5-7, 8-10, 11-13, and 14-18.

All events are 11:00 a.m. - 1:00 p.m. Eastern Time (U.S. & Canada).

**JANUARY 27: LET’S INVENT! Early Years (ages 5-7)**
Participants will be introduced to books and engage in related activities that support the learning and understanding of invention in the early years.

**FEBRUARY 24: LET’S INVENT! Early Years (ages 8-10)**
Participants will be introduced to books and engage in related activities that support the learning and understanding of invention in the early years.

**MARCH 31: LET’S INVENT! Middle Years (ages 11-13)**
This session will introduce coding as a key tool in an inventor’s tool bag, and explore “Stepping into Coding,” a five-chapter book created by Lemelson-MIT.

**APRIL 28: LET’S INVENT! Upper years (ages 14-18)**
This session will include a lesson about the entire invention process. We will touch on topics that can be explored in-depth as time permits.
