Entrepreneurship
October 19, 2023, 7:00 PM EST
Join Digital Harbor’s Kelley Schultheis to discover ways to build and include entrepreneurial thinking and skills in the classroom setting. Special guest Diana Inguito will present Slyngshot, a platform that makes it fast and easy to launch great ideas and take care of the complexities so the focus can be creating real value from your ideas.

Electronic Textiles
November 16, 2023, 7:00 PM EST
Electronic textiles are the next big thing! Get ahead of the game with Kelley Schultheis and Lemelson-MIT’s Cristina Sáenz as they lead this workshop where you’ll explore creative applications of circuitry and topics including how inventors solve problems, basic circuitry, & wearable electronic textiles.
